Mathematical Games

Dr. Kevin Costello

Martin Gardner was a prolific writer and collector of mathematical puzzles who for more than 25 years maintained a "Mathematical Games"

column in Scientific American magazine. This week would have been his 100th birthday.

In Math Club today I'll be sharing some of his classic puzzles and problems. You're all welcome to bring your own favorites (Gardner's or otherwise) as well.

Snacks and drinks served!

THURSDAY, DECEMBER 4TH, 4:10 - 5:00 P.M.

“LINEAR ALGEBRA IS EVERYWHERE”

MATT O’DELL, UC RIVERSIDE

IN THIS TALK, WE WILL SEE HOW LINEAR ALGEBRA SHOWS UP IN MANY BRANCHES OF MATHEMATICS. FIRST, WE’LL LOOK AT APPLICATIONS TO DIFFERENTIAL EQUATIONS, AND MULTIVARIABLE CALCULUS. IF TIME PERMITS, WE’LL SEE HOW LINEAR ALGEBRA IS USED TO UNDERSTAND LIE GROUPS, AND OTHER TOPOLOGICAL SPACES.

SNACKS AND DRINKS SERVED!
